

Alaska delegation in Congress is ready to address health care

I read with great interest the Compass piece you ran on March 17 by George Hieronymus ("Ask politicians to stop bickering and reform health care") about the Divided We Fail initiative which seeks to encourage solutions to our national health care problem. I agree that this is a problem we must address and that is why I have committed to the goals of Divided We Fail as was reported in the January-February issue of the AARP Bulletin. Sen. Lisa Murkowski has also joined Congressman Don Young and me in this effort.

— *Sen. Ted Stevens*
